Now I wish to explain why I have applied for this post and how I'm competent enough for the post of Principal's Nominee.

Firstly, I'm independently managing all my chores including my sister's since my childhood, as both my parents are working. This gave me a lot of confidence and made me analyze what is right and wrong and also taught me to take the right decisions. If my decision was wrong, my childhood experiences showed me the way how to resolve them. I am competent enough to communicate with others and bridge between the students.

So with this much experience, which my same-age friends might not have got, I am fully confident for the post of principal's nominee and would do my best with sincere efforts and full dedication during my tenure and would be a role model for the said post who will be occupying this position in future, if I'm selected.

Thank You.
